(b)(4),

Thank you for reaching out and apologize for not being able to discuss with you prior as the contract was being processed. Now that the contract is awarded, we would like the data for this contract to go into two separate folders ... (b)(3)

I'll be discussing with the (b)(3) tomorrow on how we want to proceed forward with ingesting data for this contract. After my meeting with the (b)(3), please coordinate with (b)(6) to work out how data is preferred to be sent to (b)(3)

As for the kickoff meeting to discuss this, I'll let you know shortly as we need to discuss internally first.

Thanks again!

Have a great night!

(b)(6)

V/R,

Subject: [URL Verdict: Neutral][Non-DoD Source] RE: HE360 - (b)(3) Proposed Contract Kick-Off

(b)6

Assuming the contract that is currently being negotiated this week is approved, I wanted to let you know our current plans for data delivery. I know you won't be able to respond till the contract is signed and I am providing this information as a heads up in anticipation of that approval.

Our current ordering system that was set up during the (b)3 provides (b)3 to your (b)3. Based on that existing (b)3 and ordering account, we will plan to (b)3 your collections planned to start on October 1 to that (b)3. Below are the details that we have of your (b)3

(b)3

Once the contract is signed, if there are changes to these details that you need to pass along to us (such as the (b)3, I'll kindly request that information as soon as readily available so we can get our systems updated quickly (b)3).

Thanks very much and I look forward to connecting soon,

(b)4

Subject: HE360 - (b)3 Proposed Contract Kick-Off

(b)6

As we get closer to formal contract approvals for your work with HawkEye 360, I wanted to not only introduce myself but also begin the planning for contract execution as soon as the PoP begins. I'll be

working as your Program Manager at HE360 for the duration of the effort and will help coordinate your collection scheduling among other program related tasking.

First off, I'd like to suggest a virtual kickoff meeting for the effort during the week of October 3rd. We can discuss the terms of the contract including specifics on collections and delivery, analytical support, and future programmatic and technical interchanges. I can send a calendar invite with a suggested agenda once we agree on a time. Below are a few time slots for a 90-minute meeting. Please let me know what you prefer or if you have other times to suggest:

(b)3

Second, given that collections can start as early as Oct 1, I'd like to suggest the following collection cadence to start. These can be modified of course based on your or the end user needs but I'd like to ensure we get our collection schedule set up soon for our operations team as they need (b)3
for their (b)3

(b)3

As part of the proposed contract, we have (b)3 that can be used to support surge periods of (b)3
We'd be happy to schedule those if there are any near-term events or can propose several options at our kick-off to utilize these collections.

Last, if you have any other topics you'd like to discuss at our kick-off meeting, or questions I can answer here, please don't hesitate to let me know.

I look forward to working with you and your team on this effort,

Regards,

(b)4
